

Cincinnati Center for Improved Communication, Inc.

Services in Speech, Language, and Language-Based Learning Disorders

As a courtesy to our patients, Cincinnati Center for Improved Communication, Inc. calls your insurance company in order to verify the benefits for speech/ language therapy. We report our findings to you, the insured. We then provide all requested information to your insurance company that is required to pursue authorization and/or payment of claims.

Unfortunately, we are not able to guarantee that the information we obtain from your insurance company is correct, or that claims will be paid. We encourage you to check with your insurance company and confirm the benefits we report.

Insurance coverage is between you, the insured, and the insurance company.

Providers are not able to influence the benefits offered by insurance companies in any way.

Many families decide to start therapy prior to being notified of approval of the authorization, or pursue therapy after their allotted sessions have expired while waiting approval for additional sessions. Patients opting for these services should consider themselves to be privately responsible, and bills are payable within thirty (30) days. **We cannot defer payment while the insurance company reviews these requests.** If the insurance company pays on sessions already paid by the patient/family, we will promptly reimburse the patient/ family.

Thank you for your cooperation. Our office staff is always happy to answer any questions or concerns you may have regarding this matter.
